Blogging Resources

Wiki Resources

Learning Management System (LMS) Resources

Presentation Software Resources

Tutorial Resources

Concept Mapping Resources

Podcast Resources

ePortfolios

Just-in-Time Resources

Open Source Software

Blogging Resources

Create your own blog for free:

<<http://www.blogger.com/home>>

Blog technology allows blogs to be syndicated and aggregators allow users to automatically search for favorite blogs on the web and have them delivered to personal accounts.

<<http://www.bloglines.com/>>

A list of aggregators is provided at:

<http://www.podcastingnews.com/topics/Podcast_Software.html>

Wiki Resources

There are many places on the web that offer wiki support for free wiki, including:

<<http://pbwiki.com/>>

To find out more about wikis and how they can be used for teaching and learning go to:

<<http://writingwiki.org/default.aspx/WritingWiki/For%20Teachers%20New%20to%20Wikis.html>>

Learning Management System (LMS) Resources

Moodle (open sources software)

<<http://moodle.org/>>

Presentation Software Resources

Open Office Suite package that includes IMPRESS as its presentation program

<<http://www.openoffice.org/index.html>>

Simple presentations can be created using the Simple Standards-Based Slide Show System (S5). This open source system requires only basic knowledge of web skills and can be learned quickly.

<<http://www.meyerweb.com/eric/tools/s5/>>

Tutorial Resources

Atomic Learning is one digital video tutorial vendor.

<www.atomiclearning.com>

Concept Mapping Resources

Cmap is an open source mapping software

<<http://cmap.ihmc.us/download/>>

Podcast Resources

Users can create their own podcast for free by going to websites such as

<<http://www.twocanoes.com/vodcaster/>>

For a nominal fee, a more powerful and cross platform podcast creator tool can be found at

<<http://www.potionfactory.com/>>

A list of aggregators is provided at:

<http://www.podcastingnews.com/topics/Podcast_Software.html>

ePortfolios

Open Source Portfolio is designed specifically for developing portfolios that serve a variety of reflective and representational functions within a password protected system.

<<http://www.osportfolio.org>>

Just-in-Time Resources

Licensed Internet available tutorials

<www.atomiclearning.com>

Open Source Software

For more information:

<http://www.opensource.org/docs/definition_plain.php>

SourceForge <<http://sourceforge.net/>>

Learning Management Systems

Moodle <<http://moodle.org/>>

Bazaar <<http://klaatu.pc.athabascau.ca/cgi-bin/b7/main.pl?rid=1>>

Database Program

MySQL <<http://dev.mysql.com/>>

Productivity suite that supports word processing, spreadsheet, and presentation applications

Open Office <<http://www.openoffice.org/index.html>>
